Paul Bangay - Stonefields

Expressing his definitive style and timeless elegance, Australia's preeminent garden designer Paul Bangay, has created a blissful range of fabrics made from UV resistant yarns and designed for use indoors and out.

Making tangible the feelings of harmony, balance and style that one experiences in a Paul Bangay garden, The Stonefields Collection celebrates the classic simplicity Bangay is internationally renowned for.

Earthy terracotta's and leafy greens, marine blues and chic monotonics exude a sense of beauty and space, celebrating the colours of natural tranquility. The fabric's stylized motifs echo an affinity with the symmetry and balance so often seen in a Bangay garden.

The Stonefields Collection is a beautiful blend of classic and contemporary design, perfect for every home.

The Stonefields Collection is available exclusively through Elliott Clarke.
